March 12, 2018

Dear Dr. Hulse,

I am pleased to invite you (and confirm your registration) to participate on *Workshop on Automorphic Forms, L-functions, and Moments* which will be held between July 30-August 5, 2018 in the Nesin Mathematics Village, Selçuk, Izmir, Turkey. See <https://ekiral.github.io/nesinworkshop.html> for the latest information.

This is a one week workshop, focusing on the moment results for families of L -functions. For the first half of the week there will be talks surveying the recent results in the area, and the participants will have ample time for collaborative work. The participants are also encouraged to collaborate in the wider area of automorphic forms and L -functions, not necessarily related to moments of L -functions.

The Nesin Mathematics Village is in an idyllic location in the Selçuk province of İzmir, Turkey. The isolated environment acts as a catalyst for deep focus on a particular topic.

Please note that we are unable to cover the travel costs of your participation in this Workshop, the cost of lodging is listed below. There can be limited support from the Nesin Mathematics Village for the lodging cost, however the fee is modest and we would greatly appreciate it if you have the means to cover it. There is no registration fee for the workshop.

Single room, per day, per person 180 TL

Double room or 1+1 room, per day per person 145 TL

Note: Prices include three meals daily.

Sincerely,

On behalf of the organizing committee,

Eren Mehmet Kiral
